

Seven Bucks Irrigation: Accomplishing Client's Landscaping Goals with Highly Dedicated Services

The Indian Landscaping & Gardening sector is expected to grow at a CAGR of 5.58 percent during the period of 2017-21. Innovations in landscaping & gardening practices as well as the awareness of its role in the quality of the environment are the prime factors responsible for this huge growth. To reap the benefits of this prospering industry, landscaping service providers are introducing value-added services and offering their best solutions to the clients.

Established in 2015, Seven Bucks Irrigation is reckoned for its cost-effective landscape designs and unmatched dedicated services such as Landscape Takeoff, Specification Review, Project Management Services and more. However, the segment at which the firm excels is Landscape Designing and Landscape Maintenance. Leveraging the expertise in landscape maintenance, Seven Bucks ensures that the client's property is in top shape all year long.

Our planning takes care of a smooth flow of work with minimal wastage of any resource, human or other

Besides, the firm offers Landscaping Installation along with all the other maintenance services like mowing, weed control & removal, fertilization, trimming & pruning, pest control & management, hydroseeding, and

hardscape maintenance. Today, Seven Bucks holds a strong reputation in the industry as a company that excels in creating designs with attention to detail. The firm has been consistently providing design solutions to more than 100 clients in US, Canada, UK, and UAE.

With a belief that every project regardless of size benefits from pre-planning and upfront site analysis, Seven Bucks performs a detailed examination of the client's site and understands their needs & ideas before proceeding with the designing. Once the design is confirmed by the client, the firm sets a suitable budget & deadline which is then strictly followed until the project is delivered. "We never compromise on the quality of equipment or skilled labor required for installation of the project. Once a client hires us, they can be rest assured of the best work that is possible on their landscape," states Muzaffar Masudi, Owner, Seven Bucks.

High Level Commitment

The Seven Bucks team possesses highly trained, professional landscape designers, landscape architects, landscape engineers, and knowledgeable experts who always ensure a cost-effective design for each of its clients. Unlike its contemporaries, Seven Bucks strives hard to keep its promises and delivers the project within the time, following a fixed time module, which is the forte of Seven Bucks. For instance, once a client asked the firm to deliver the project by the next morning. With great dedication & commitment, Seven Bucks performed the task, completed it within the time and delivered it by the next morning, which

Muzaffar Masudi,
Owner

not only amazed the client, but made them appreciate the whole Seven Bucks team. Where other companies may waste some area with wrong designing, Seven Bucks ensures that every sq.in of a place is well utilized. "Our planning takes care of a smooth flow of work with minimal wastage of any resource, human or other," states Muzaffar.

Seven Bucks has witnessed consistent growth since its inception. With integrity, passion, client value creation, teamwork, and responsibility embedded in its core values, the firm today is creating a buzz in the landscaping industry space. In the coming future, Seven Bucks plans to develop an app that will be a one-stop-shop for anyone for any landscaping solutions. The app will connect the firm directly with the large and constantly evolving market of the consumers, who want quality in their landscape design and maintenance.
